October 8, 2014

Dear Members of the Board,

In 2012, during the transition year of LCPCS, Hui Kako'o O Laupahoehoe was given the directive to raise funds for the school to purchase a Thomas-built Hybrid Bus. This directive came from Dr. David Rizer, and was approved by the School Board. At the time the school had determined it was far less expensive to purchase buses than lease them. Furthermore it was determined that in the long term it was economically prudent to purchase the initially more expensive hybrid bus. The hybrid bus also had the advantage of aligning with school values and being a traveling school advertisement.

BOARD PROPOSAL FORM

The new school has undergone many changes in the last two years. The most significant in regard to the purchase of a hybrid bus is the School's acquisition of two used school buses. The Hui has received conflicting information about proceeding with the hybrid bus fund raising initiative, however none of the information originated as a communication from the Governing Board.

At present there is \$6655.21 committed for a hybrid bus at the Hui and over \$7200, (proceeds from The Hui's first silent auction) at LCPCS. We respectfully request the Governing Board inform the Hui if it still intends to purchase a Thomas C2e Hybrid Bus and if so, should the Hui treat it as a fund raising priority.

Sincerely,

Holly Young, President
