Enrollment Policy & Procedures

LCPCS Campus General Policies

1. Every child in Laupāhoehoe's school district, as defined by the Hawaii Department of Education, shall be entitled to enroll at Laupāhoehoe Community Public Charter School (LCPCS) as required by the Charter School Contract between LCPCS and the Hawaii Charter School Commission.
2. In order to ensure that LCPCS can maintain grade level class sizes that are conducive to quality teaching and learning, grades K-5 shall be considered "full" once they have 20 or more students enrolled.
3. Students outside of the Laupāhoehoe school district may not be enrolled in a class once it is full, except where noted in this policy.
4. Once a student is enrolled at LCPCS, they shall be considered part of the LCPCS family and shall be provided the same continuing enrollment rights as students in the district until they leave the school, voluntarily or for disciplinary reasons.
5. In order to support families, siblings of enrolled students that live outside of the school district may be granted "in district" enrollment status, if the class is full. In order to support the families of LCPCS employees and board members, children of staff and board members may be given in district enrollment status, if the class is full. At no time may the students enrolled at LCPCS via these preferences exceed ten percent of the total student population.
6. If more than 22 students are enrolled in a grade level class in grades Kindergarten through 5, the administration shall present a plan to the board to provide that teacher with adequate supports. That plan shall include actions that will occur if the class size continues to rise. The Board shall consider that plan and may approve it, amend it, or replace it with a plan of their own. If the Board cannot agree on an action the administration plan shall be considered approved.
7. If a class reaches more than 30 students, the administration shall present a staffing plan to the Board that will provide high quality teaching and learning opportunities for students. The Board shall consider that plan and may approve it, amend it, or replace it with a different plan. If the Board cannot agree on an action the administration plan shall be considered approved.

Each student will be assigned a reference number printed on identical pieces of paper, folded to ensure no student identity can be

connected to the lottery process until numbers are drawn. The papers representing each student will be placed in a container and drawn at random by the Governing Board Chair, or acting Chair during an open session of the Board. The Secretary will read the name associated with each number as it is drawn. The first student drawn will be the first name on the waiting list, the second name drawn, the second on the waiting list, and so forth.
